## 1.0 INTRODUCTION

The revised University fee structure approved by the University Council at its 154<sup>th</sup> meeting held on 28<sup>th</sup> March 2019 provides clarity on “Other fees” payable to University. In this revision, a list of fees other than tuition fees that are directly payable to University are conglomerated into what is termed “Other fees”. This revision replaces the last revised fee structure approved by the Sokoine University of Agriculture Council at its 136<sup>th</sup> meeting that was held on 11<sup>th</sup> December, 2014, which separates items of other fees. The fees that were conglomerated into “other fees” includes graduation cost, library cost, examination fee, certificate fee, final transcript, caution money and registration fee). The University fees remained unchanged.

The aim of lumping together these items into “Other fees” was to minimize hassles to students who were required to pay each single fee item into separate Bank account. Lumping the fees together also provide clarity over which component are payable per semester and which are payable per annum and provide clarity on what component should be paid in all years of study.

This fees structure booklet presents Tuition fees, other fees, estimated direct cost payable to students (cost of living and special faculty requirements) for undergraduate degree and non-degree programmes. In this document clarity has been improved by showing components of “other fees” and which components are payable per Semester and which are payable per annum.
